

Hi Sean,

I hope that you had a good start to the year, and that the students are even better than they were last year.

I would just like to say thanks for all the help from the last two years that you ,your school, and teachers have given me. Without Freemont there would be no chance of me getting here at all. For that I truly am grateful. You really are doing a great thing.

Being in University is a completely different setting, but after sitting through most of my classes I had this great feeling, because I had covered everything in previous classes from grade 12 and actually have a very strong base for what will be covered this year. Which is why I'm happy that I kept all my old notes, as I now have another reference to look over that I know I understand.

If you are still hosting a film studies class, those taking it should consider themselves lucky. I would give anything to have the same class as ours, as my teacher just does not have your same appreciation for good films.

I hope your year goes well, and that there are another good bunch of teachers. Tell everyone I say hi.

Hilton Byrne.
