

FROM PARENT

Dear Sean,

I know that I have thanked you many times over the last 2 years, but I am not aware if you understand how truly grateful I am. As you are well acquainted with our challenges, it is you whom I credit getting Lorne to begin to realize his gift and to overcome some of his issues. In fact I think we can both agree that he did accomplish some fine work, although not consistently, it was indeed outstanding! It was clear from the start that your interest in Lorne succeeding went far beyond the responsibility of any teacher. It is only a GIFTED teacher and mentor who can get through to a reluctant student. I have always thought that if a child has the experience of one great teacher in their lives then the impact of that experience will stay with them for their lifetime and learning will always be something that is never taken for granted.

For all of that, I thank you. You are a wonderful, kind, and outstanding educator with great insight into the minds of your students. I believe that any student who has the privilege of knowing you will be richer in their lives.

I wish you much success and all things wonderful in your personal and professional life.

I also hope that you continue to influence Lorne in the immeasurable way you already have.

Thanks once more. Have a wonderful summer.

Anne
